TROUBLE IN BRITISH COLUMBIA

British Columbia provincial politics are hot, hotter, hottest. It is a poor year in British Columbia when there is not either a change of government or a general election. The last government lost its grip because the premier lost contracts to himself, and the previous one because of a misunderstanding as to the ownership of a few hundred thousand acres of valuable lands. The present McBride government stands a good chance of falling because one of its supporters in the legislature entered the legislative chamber during the preceding session in an irresponsible condition.

At the result of the recent general elections the McBride government was returned to power by a narrow majority. Among the most forceful of its supporters, representing one of the most important constituencies of the province, was John Houston, ex-mayor of Nelson and representative of that city, which is the commercial capital of the Kootenay country. As the most prominent supporter of the government from the mining country, Mr. Houston was naturally eligible for a cabinet position and his supporters were not long in demanding it for him. To this demand Mr. McBride acceded with a greater or less degree of grace, and the name of John Houston figured on the list of names sent in for the acceptance of the Lieutenant Governor, Sir Henri Joly, as his new advisers.

The Lieutenant Governor, representing the crown, has only the power to accept or reject the advisers offered him. In practice the crown calls upon the man, who is supposed for one reason or another to be able to command the support of a majority of the legislature, to form a government, or to choose a cabinet, which shall advise the crown. The person so called upon is by virtue of that call the leader of the government, or premier. He submits the names of the colleagues whom he has chosen to the crown for its approval, and once the approval is given the government is formed. In this case the Lieutenant Governor took the extraordinary course of refusing to accept Mr. Houston as one of his advisers and so informed Mr. McBride, who in turn informed Mr. Houston, and let it go at that.

Mr. Houston is a very rough and ready individual—the accent on both words—and he was not so easily satisfied as the premier, and unpleasantly asked explanations, first from Mr. McBride and then from the Lieutenant Governor. The explanation of the Lieutenant Governor was forthcoming promptly, and was as above stated.

While the reason, given might seem very satisfactory to the premier and the Lieutenant Governor, it was not by any means satisfactory to Mr. Houston, or to the electors of Nelson. Apparently Mr. McBride had thought that the answer of the Lieutenant Governor settled the question, but Mr. Houston's view was that it had only opened it. He knew that under the responsible system of government, if the crown refuses the advice of its ministers the only course open to the ministers is to cease to offer advice, that is, to resign. If they do not resign the fact of their remaining in office is the assumption by them of responsibility for the action of the crown. That is to say, when Lieutenant Governor Joly refused to accept Mr. McBride's government as a member of the McBride government it was up to Mr. McBride to resign there and then. As he did not do so he has made himself a party to the turning down of Houston, and Houston declares that he will have "revenge." The latest news from the seat of war was that Houston would support the conservative party, but would knife the McBride government. As that government had only a clear majority of one after electing a speaker, its continued existence depends very largely upon Mr. Houston's favor, which notwithstanding his avowal of party allegiance, is not strikingly likely to give much comfort to Premier McBride; under all

the circumstances. A defeat of the McBride government would mean another general election.

Hon. Mr. McBride resigned, as constitutional precedent required, the Lieutenant Governor would have been placed in a most difficult position, and he would have been very likely to have followed his immediate predecessor into early retirement. It such a thing can be conceived it may be suggested that the course to be severally taken by the premier and Lieutenant Governor in regard to Mr. Houston must have been a subject of previous mutual understanding.

THE BAZAAR

The bazaar given for the benefit of St. Joachim's church, Edmonton, in Robertson Hall, was concluded last night. It was a most decided success from every point of view. Everything for sale was disposed of. The drawing for prizes was very interesting. Mrs. Francis drawing the valuable fancy screen. The Old Timers' raffle contest attracted a great deal of interest and was very exciting up to the last moment, when J. Kelly was announced the winner. Much credit is due the Edmonton fire brigade for their assistance in the contest. Another contest for popularity between Percy Blois and Gus Leonard, was very interesting. Percy Blois winning out.

The program last evening was exceedingly good. Recitations, vocal and instrumental selections were rendered. The sales by Mrs. Wilfrid Gariepy, accompanied by Miss Gariepy, and by Mr. Howard Stutchbury, accompanied by V. W. Barford, were excellent and are deserving of special mention. Miss Gariepy and Mr. Dubuc gave a couple of instrumental solos, which were greatly enjoyed. The instrumental music of Messrs. Hart and Finney was very popular. A song by Walter Clark and a recitation by Mr. Lamoureux were very well received.

Rev. Father Leduc made a few remarks thanking the people for their kindly aid and generosity, which made the bazaar such a great financial success. About twelve hundred dollars was realized.

The Ladies Aid Society of St. Joachim's church are deserving of the highest praise for their untiring efforts in making the bazaar such a decided success. The meals served were not by any means the least successful feature of the bazaar. The ladies who conducted the sale of fancy work, etc., deserve a great deal of credit.

The bazaar was highly successful, both from a financial and social standpoint.

WAGHORN'S GUIDE

Travellers often ask where they can get a good pocket map of the North-West. It suggests the well-known motto, "You'll find it in Waghorn's Guide," and as the Guide is synonymous of everything useful, we are not surprised to find that it meets our wants by publishing an excellent new map of Manitoba and the North-West in the November issue. The map covers the country from Winnipeg to the Rockies, and north to the Prince Albert and Edmonton districts. The railways, stations, post offices and general topography are clearly shown. The extent of our railway system as shown on the map, will surprise many people who have not followed closely the rapid progress in railway construction that has quietly taken place within recent years. The map is particularly useful in connection with the well arranged tables of travel, and other useful information comprised in the Guide.

HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Territories, excepting 8 and 26, which have not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or it the homesteader desires he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district, in which the land is situated, receive authority for some one to make entry for him. A fee of \$10 is charged for a homestead entry.

HOMESTEAD DUTIES.

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto to perform the condition connected therewith under one of the following plans:—

1. At least six months' residence upon and cultivation of the land in each year during the term of three years.

2. If the father or mother, if the father is deceased or any person who is eligible to make a homestead entry under the provisions of this act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3. If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by the Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4. If the settler has his permanent

residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above, is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

APPLICATION FOR PATENT.

Should be made at the end of the three years before the Local Agent, Sub Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION.

Newly arrived immigrants will receive at the Immigration office—in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-West Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg; Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.

JAMES A. SMART,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from Railroad and other corporations and private firms in Western Canada.

WAR IS INEVITABLE

London, Nov.—2.—Cabling from Chefoo the correspondent of the Morning Post says the majority of Russian warships in Chinese waters are of the Tienwan and Hayangtao. Three Chinese Cruisers left Chefoo yesterday, the correspondent goes on to say, for the mouth of the Yalu river this constitutes an infringement of Korean rights.

The St. Petersburg correspondent of the Daily Mail says he learns that the Russian government does not expect war with Japan in any event before next spring, even should the negotiations fail.

The correspondent at Shanghai of the Daily Telegraph says he has learned from reliable sources in Tokio, that although the negotiations between Russia and Japan continue, Japan is inflexible and a conflict sooner or later is regarded as inevitable.

Tokio, Oct. 14.—(Correspondence of the Associated Press.)—The correspondent of the Associated Press has received information from some of the leading diplomatic authorities showing that the gravity of the Russo-Japanese situation has not been exaggerated in cablegrams from Japan. There is prevalent, however, a strong desire in Japan to preserve peace if only that course be possible. It is only to be said that the idea of the existence of a "war party" so-called, in Japan is wrong and that the emperor, the cabinet and his advisers, are all in favor of an honorable compromise for the difficulties. But it is argued that the conflict between Russia and Japan for the mastery of the Pacific Japan for the mastery of the Pacific must necessarily come and must inevitably leave a greater forthcoming conflict between Russia and the United States unless some halting ground of Russian expansion be found. Japan is convinced that the first halting ground should be Manchuria, and, failing that, it must be Korea.

There is undoubtedly a strong feeling in Japan that it Russia be allowed to overrun Manchuria and also overrun Korea, the knell of the empire will have been sounded. Thereupon, while there is no compromise on a basis for willing to open door in Manchuria, the retention of Manchuria by China is an integral part of her kingdom and the absolute integrity of the dome Japan is not prepared to go further. In the outlying districts of the situation is liable to get out of hand and a hostile crisis is possible at any time. In the meantime, disturbing rumors of Russian movements, following non-observance on October 8th, in defiance of the treaty, continue to unsettle trade.

LEAD TO
EDMONTON

EDMONTON is the centre of attraction of the North-West Territories today. No place in the west occupies such a unique and enviable position. It being the centre of the largest and richest agricultural and mixed farming district in Canada.

The future coal supply depot for the Territories, hence the future Manufacturing metropolis of the country. The coming great railway centre of the west. The gateway to the great agricultural, fur and timber country to the north and the distributing point for an area exceeding 900,000 square miles. The extent and far reaching trade of Edmonton is a source of wonderment and surprise to visitors but is only an indication of what it is going to become. Edmonton is to-day one of the greatest distributing points of the world, forwarding goods over an area six times the size of the British Isles.
